**Historical Roots of the Urban Crisis**-Henry L. Taylor Jr. 2013-06-17 This collection of 12 new essays will tell the story of how the gradual transformation of industrial society into service-driven postindustrial society affected black life and culture in the city between 1900 and 1950, and it will shed light on the development of those forces that wreaked havoc in the lives of African Americans in the succeeding epoch. The book will examine the black urban experience in the northern, southern and western regions of the U.S. and will be thematically organized around the themes of work, community, city building, and protest. The analytic focus will be on the efforts of African Americans to find work and build communities in a constantly changing economy and urban environments, tinged with racism, hostility, and the notions of white supremacy. Some chapters will be based on original research, while others will represent a synthesis of existing literature on that topic.

**The Complete Book of Ducati Motorcycles**-Ian Falloon 2016-07-01 From the single-cylinder bikes of the 1950s to the high-performance sportbikes of today, The Complete Book of Ducati Motorcycles showcases the entire spectrum of Ducati. Legendary Ducati motorcycles have something of a rags-to-riches story. This Italian motorcycle manufacturer began by selling motorized bicycles to impoverished residents of post-World War II Italy. Today, Ducati is the world's premier manufacturer of street motorcycles whose sales continue to rise year after year. Its svelte, hyper-accelerating motorcycles are two-wheeled wonders that are fluent in the language of speed. The Complete Book of Ducati Motorcycles traces the stunning chronology of the motorcycles dreamed up by Ducati, from the 1950s to present day. Laid out for the first time in encyclopedia form with gorgeous photography and insights from Ducati expert Ian Falloon, this book offers motorcycle enthusiasts a closer look at the craftsmanship, power, and beauty of these extraordinary motorcycles. The book features all of the motorcycles from Ducati's storied history, including the groundbreaking Desmodromic 750 Super Sport, the Mike Hailwood Replica, the Superbike-dominating 916, and the epic Panigale. From the street bikes that gave birth to the very notion of the modern superbike to the racing motorcycles that dominated tracks in Great Britain, Europe, and North America since the latter part of the twentieth century, The Complete Book of Ducati Motorcycles runs the full gamut of sportbikes. It's a collection that demands shelf space in the library of any true motorcycle collector or fan.

**The Mythic Warrior's Handbook**-the Centaur Chiron 2010-01-18 Back when lightning-throwing gods and multiheaded monsters ruled a world in constant chaos, there was one man who stood on four hooves against it all. He turned cowardly boys into powerful warriors, helped them achieve greatness, and overcome their Daddy issues--seriously, how many kids back then were waiting for Zeus to come by and play catch? Now, thousands of years later, Chiron's textbook has been unearthed. And it's your chance to join the ranks of Ancient Greece's finest. Be forewarned: It's no simple task. You have a lot to learn. Inside lies the necessary knowledge to start a quest as epic as one of the greats--from the inner workings of Mt. Olympus to the ins-and-outs of the Underworld to the Achilles' heel of each brutal beast you'll battle along the way. This handbook is as important as the sword in your hand and the shield on your back.
